

TIPS FOR Finding Students

Each Rotary Club is entirely in charge of its student selection process. You may choose to appoint a committee of Rotarians to interview and select candidates – completely up to you. Here are some options and tips for finding interested students:

Contact Local High Schools

Ask for a list of potential students. You may allow the schools to name the students for you or you may obtain nominees and select yourself. If you sponsor an Interact Club, you can select from those club members.

Connect with the Boys & Girls Club or YMCA

These organizations have a focus on youth and will likely have many qualified students who will be interested in attending but might not otherwise be aware of RYLA.

Ask Friends & Family

Club members probably know someone with a student who would be qualified and interested. Children of Rotarians are also eligible for RYLA.

RYLA

***** Students must be Ages 15 to 18 *****
